

DISSOLVER 400XH

Advantages :

- Good dispersion, pre-mixing and ready mixing at low power consumption
- Mobile container volumes up to 400 litres gross volume
- Motor size: 15 HP
- The Dissolver is available in both totally enclosed fan-cooled execution and flameproof / explosion proof execution
- Continuous, infinite speed control by means of a frequency converter
- Very strong and stable construction
- Electrohydraulic unit for lifting and lowering of the mixing unit with built-in safety cut-out switch
- Container fastening device for containers with diameter 400 – 750 mm, mounted on the column with built-in safety cut-out switch
- In standard execution, the Dissolver is fully CE/ATEX marked in conformity with the Machine, Low Voltage and EMC Directives
- Vacuum equipment is optional
