

DISSOLVER TYPE 1200ZH

DISSOLVER 1200ZH

Advantages :

- Good dispersion, pre-mixing and ready mixing at low power consumption
- Mobile container volumes up to 1200 litres gross volume
- Motor size: 25, 30, 40, 50, 60 HP
- The Dissolver is available in both totally enclosed fan-cooled execution and flameproof / explosion proof execution
- Continuous, infinite speed control by means of a frequency converter, speed 500-1300 rpm constant torque 1300 – 1600 constant power
- Very strong and stable construction
- Electrohydraulic unit for lifting and lowering of the mixing unit with built-in safety cut-out switch
- Container fastening device for containers with diameter 600 – 1200 mm, mounted on the column with built-in safety cut-out switch
- In standard execution, the Dissolver is fully CE/ATEX marked in conformity with the Machine, Low Voltage and EMC Directives
- Lid in stainless steel is optional
- Vacuum equipment is optional
